Sydney Down Under

Sharing Spatial Information on the Sydney Underground

A partnership project for Asset Management & Emergency Services

This one day workshop explores the extension of the Emergency Services Spatial Information Library from 2-D to 3-D. The workshop is professionally moderated and seeks maximum input from participants to promote shared usage of the spatial data.

Learn how the Department of Lands, City of Sydney, Sydney Metro, AGL, Telstra, Railcorp, Sydney Water, Energy Australia, RTA, Department of Primary Industries, Department of Commerce and Optus have shifted the paradigm from archiving spatial data to shared usage.

Key speakers will explore standards and procedures, the SDI Framework, regulatory matters and future plans for mapping other CBD areas and throughout NSW.
